

Tower of Fantasy Reroll Guide

For the best gacha pull in the game Tower of Fantasy, you need to reroll in the game. Rerolling in this game, makes you access the gacha banners, that might take more time than usual rerolling processes; it is bit tedious. The account cannot be reset or deleted thus you need to create accounts; well making accounts is very tiresome. Thus, to get rid of this, follow this this guide to reroll with ease. So, without any further ado let's get started.

Tower of Fantasy is a shared open-world MMORPG, developed by Hotta studio in which players can reroll to get better gacha pull rates. As said earlier, you can need to make few dummy accounts; make sure not use your preferred user name in those dummy accounts- rather give random names to it as you can use names only once. Through these you can pull up to 30 at max.

In order to maximize your rerolling potential, there are specific times when you need to reroll a new account, i.e., the 180 days after the release of the game to get the pre-registration bonuses.

How to Reroll:

Start the game with the account registration. Play the prologue quest and choose to name your character. Skip the game's intro and move forward to get your control over the character. Play through the tutorial till you reach the main hub in Aldia.

Once you get your controls back on the character, complete the tutorial- the chain of tutorials with Shirli in Aldia. You can skip the Character Creation part and come back later for it. After that quickly kill the robots to unlock exploration in Aldia and the Ecological Station mission which further unlocks Gacha. Talk to Scrapper in Astra Omnium Tower to start the mission. Once reached to the spot, kill 5 hyenas over there. Once the enemies are eliminated talk to Scrapper to unlock the first Simulcra and the Gacha system.

Click the icon in the top-right corner of the screen to access rewards. Claim the rewards of 10 Gold Nuclei in the Side by Side 1; 10 more Gold Nuclei after you have claimed the reward on the Pre-registration Milestones. Follow the steps in Early Game Gold Nucleus section to gather 10 more Gold Nuclei. Access the Special Orders screen and roll the 30 Gold nuclei on the Weapon Galore banner; if you get the SSR of your choice unless roll again!!

That's all!!
