

Fobia St. Dinfna Hotel Picture Puzzle Solution

This puzzle in Fobia St. Dinfna Hotel is unique from the rest of the puzzles. This puzzle should be solved to get into the secret passage behind the bookshelf in the 7th floor, nevertheless, the hidden room contain the blue key card which will be required in the later part of the game. The picture puzzle is easy unless you have not missed the essential notes and keys. If you find it difficult then this guide will help you solve the puzzle. So, without any further ado, let's get started.

The Picture Puzzle:

This puzzle is located in the room 709, while the room is located at the 7th floor. You need the modular key and its third piece as well. Reach the 7th floor using the elevator and put in the key in the lock of the room 709 present at the right side of the elevator. Rotate the pattern to the combination, "ski Y eta"; the door will open. Go straight in the passageway when you will find some pictures hanging down in the left side of the protagonist with a note lying underneath it. The note contains the hint for the puzzle. It has some narration which describes the sceneries in the picture and in which order you need to click to unlock the hidden room.

Let's not stretch long, the combination for the puzzle is 1,5,3,2,4. Select in this order and you will see the right bookshelf sliding open, revealing the hidden room.

After finishing the stuffs in the right passage, go to the left passageway of the floor. Use the modular key to unlock the door by rotating the combination "ski epsilon pie"; the door will open. The end of the passageway is not the end actually. See through the wall using the camera because there is a crowbar, some upgraded items and supplies behind the wall which are essential. Now after acquiring those, scan the picture puzzle using the camera. Then, read the note; as usual it will provide you with a hint. The hint basically means the order 3,4,2,5,1 which you need to follow while selecting the pictures. Successful execution of the order will slide out the left bookshelf revealing the entire door.

The mid-hall contains the bookshelf and the hidden door. Use the modular key with the combination "X Y beta". You will find the blue keycard, some upgraded items, a password document and a safe inside the hidden office. There will be a requirement of the 4th piece of the modular key to unlock the safe.

That's all!!
