

## **Tower of Fantasy How to get Mount Voyager**

The game Tower of Fantasy is an MMORPG with a tincture of anime-infused sci-fi adventures where the game is set in the world of Aida and developed by Hotta Studios. In this you can access different vehicles and one of these is Tower of Fantasy Mount Voyager. This will help you to traverse on the map with ease. Thus, if you are interested, then this guide will help you to get the vehicle. So, without any further ado, let's get started.

You cannot get the voyager right from the beginning; you need to complete most of the quests in chapter 1. The mission for paying the visit to Hykros will unlock two major features: - unlocks mountains and after completing the above quest, you can unlock the Falcon and the vehicle menu. The default key for accessing the menu is V.

This voyager is built by assembling the 4 different parts collected from different sources. These parts are:

- Hull- collect this from the supply pod below the SSR Colossus Arm Relic.
- Engine- you will get this after you complete Hyena's Banges base mission and then proceed to top of the structure to come across a Hyena's member. Offer this character your Sizzling meat and that character will offer you the Voyager Engine which he would be guarding.
- Thruster- this part will be available in the northwest side of Navia, where you can get that as a drop from the Four Powers.
- Pilot Seat- reach at the locked bunker in the Seaforth Dock. You should enter the code 3594 in order to get access to the bunker. Inside the spherical shield, there will be your desired part.

Assemble the parts in order to build the Mount Voyager. Now you can surf upon lands easily.

That's all!!
