

Ooblets How to Upgrade and Repair Farmhouse

Ooblets is a life simulation game developed and published by Glumberland and was released on July, 2020. In this game the protagonist has to live a normal and prosperous farmer life in Badgetown in Oob. In this game you can upgrade your farm house for a better farming and good yield. The farmhouse is where players spent most of their energy and time. Thus, for a newbie repairing the farmhouse will be the foremost duty. In that case this guide will help you those newbies. So, without any further ado, let's get started.

First of all, you need raw materials to repair the farmhouse. Those raw materials are 12x planklets, 8x nurnies and 5x clothlets.

Planklets are basically pieces of wood which can be obtained by chopping logs and branches that may be lying on your farmland, clear them off. Nurnies can also be found near farmland and can be harvested by smashing rocks or fishing them. make sure you have a filled energy bar to collect nurnies, this will make you collect the desire amount of Nurnies within no time.

Finding clothlets might be a pain, because the place for collecting clothlets might be different for different players but there are certain areas where you can find clothlets:

- To the right of Town Hall- behind the Arven.
- In front of the Town Hall, next to the Wishy Well
- To the left of deflated hot air balloon
- Near Frunbuns Clubhouse, in front of the Dance Barn
- Near the Badgetown Oobnet Tower

If you are still finding it difficult to locate clothlets then sleep during the night and collect it in the day, the clothlets might have respawned.

Once all the materials are collected, return to the Deposit Box and drop everything. Npw you decorate the house once you built the furniture.

That's all!!
