

Sniper Elite 5- Stolen Antiques Location Optional Objectives

Optional objectives in Sniper Elite 5 are optional missions which helps you to push your rank and XPs. This game has many no-end levels that helps players to play in their own way to take down Nazi soldiers and complete the mission. So, without any further ado, let's get going.

Locations and previous objectives: -

Recovering Stolen Antiques is an optional objective; needed to be completed to earn three stars. It's kind of a sub-mission in the Occupied Residence Mission. You need to kill some specific soldiers or you might hack into vaults behind paintings in order to get the antique pieces that will add to your Hidden Items category.

This mission takes place at or around Chateau Estate; heavily guarded with arm forces; present in the northern part of the map (the smallest map to be explored). One must be warned that even if this is an optional objective, this place is heavily guarded with armed forces.... it isn't easy as you think it is.

Recover Stolen Antique 1 - Soldier Statuette: -

As you enter into Nazi camps, overcoming the forest and the stream, leading into the eastern road, you can spot a massive house (call it a bungalow). That's the mansion you will be looking for. Move stealthily into the Courtyard of the Chateau Estate which will be packed with soldiers. Try to get near the gate without being noticed. As soon as you reach the gate, you can notice a white flash coming from the tower of the northwestern building, there's where the stolen antique is. From the northwestern building a sniper would be aiming at you, take him down and some more gunman. Reach to the dead sniper using climbers protruding out down the wall. That's it, you have got your first stolen antique and a personal letter which needs to be collected from the chest.

Recover Stolen Antique 2- south of Chateau Estate: -

The next antique is in the third floor of the Estate but to get hold of it, first you need to disable the alarm system or it might alert the soldiers inside the chateau. How much, a good sniper you are, they might reach you in any direction and defending might be a pain, so let's disable this system (present in the middle of the courtyard) using a silenced gun or SMG. After you do so, reach out for the stairs in the middle southern part of the chateau, climb up to the third floor and enter into the first opened room. See if any soldier is present inside it, kill him (if any) with silenced weapon but be fast. When your path is cleared open the crate inside the room using lockpick or bolt cutters. There will be another antique piece inside it and a personal letter.

Recover Stolen Antique 3- northwestern of Chateau Estate: -

Check the northwestern region of the Chateau Estate. After you move out of the Abelard Moller's Office, turn left, walk straight, enter into the second doorway to the left and head

straight into the bedroom. As soon as you enter you will notice a personal letter again lying over a crate at the end of the bed. Take it with you. Beside the bed, towards left, there will be a painting. Point towards it and you can remove it sideways to get a safe hidden behind the painting. The safe can be opened in two ways:

- Using a Satchel charger- it can be found in the Chateau Cellars. The Cellars can be accessed using the stairway off the ballroom or a ramp heading into the southern end of the Estate.
- Using the code learned from Intel information (scribbled on a personal letter).

Once the safe is opened you can find out the last Stolen Antique.

That's it!! You have found out all the three Stolen Antique in Sniper Elite 5.
